Objective

Aspiring Frontend Developer with a solid foundation in HTML, CSS, and JavaScript, seeking a challenging internship to apply my skills in real-world web development projects. Eager to contribute to a dynamic team while continuing to grow technically and professionally.

Skills

- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+)
- Tools & Platforms: Visual Studio Code, Git & GitHub, Chrome DevTools
- Soft Skills: Problem-solving, Teamwork, Attention to detail, Quick learner

Projects

Rock-Paper-Scissors Game

Technologies: HTML, CSS, JavaScript

- Fun and interactive browser game using JavaScript and DOM manipulation.
- Implemented game logic, dynamic UI updates, and responsive design.

Travel Website

Technologies: HTML, CSS

- Multi-page responsive website with rich visuals for destinations and booking interface.
- Focused on layout structure, mobile responsiveness, and clean UI design.

To-Do List Web App

Technologies: HTML, CSS, JavaScript (DOM Manipulation)

- A task manager app with functionality to add, delete, and mark tasks as complete.
- Used localStorage to persist tasks between sessions.

Amazon Clone

Technologies: HTML, CSS

- Created a simplified UI replica of Amazon homepage layout.
- Focused on product grid styling and consistency with real-world design patterns.

Abstract HelpCenter UI

Technologies: HTML, CSS

- Designed a customer help center with organized content sections.
- Emphasis on user navigation and responsive user interface.

Education

V.V.P Engineering College

B.E. in Information Technology

Expected Graduation: 2027

Certifications

Certificate of Completion
